Today's Panelists

John Coletti, Area Vice President, CNA Technology

John Coletti is the AVP of CNA's Technology Segment and is responsible for its portfolio of professional liability business, including technology, cyber and media liability. Based in New York City, John leads a country-wide team of underwriters dedicated to underwriting errors and omissions, media and information risk coverages. He joined CNA in 2004 and has held positions of increasing responsibility. He assumed his current position in 2005. Prior to joining CNA, John spent 11 years with Gulf Insurance starting as accountant, moving to Internal Audit and then Underwriting. He has a B.A. in Accounting from Adelphi University.

Today's Panelists

Stephen Douglas, Risk Control Director, CNA Technology

Stephen F. Douglas, CSP, ARM, is Risk Control Director of CNA Technology, which provides insurance and risk control solutions to businesses in information technology and internet services, telecommunications, and electronic component and hardware manufacturing. He has worked in Risk Control for fourteen years and has also worked as a production engineer in electronics manufacturing.

Mr. Douglas has presented courses on privacy and computer network security, technology errors and omissions, and emerging technology risks across the country as part of CNA's School of Risk Control Excellence, as well as to trade and insurance organizations. Mr. Douglas has also written and contributed to articles and whitepapers on a wide variety of technology risk related topics including areas such as nanotechnology, information risks, technology errors and omissions, network security and risk management for information technology companies.

Today's Panelists

Meghan Hannes, Managing Director, CloudInsure

Meghan McAuley Hannes has several years of experience developing Privacy Liability insurance products and programs, as well as experience underwriting and assessing privacy, network security & new media risk as related to technology failure, notification, damage to reputation/brand image, intellectual property and crisis management expenses. During her employment with ChubbGroup of Insurance Companies and Hartford Financial Products, she specialized in Privacy & Security Liability program design for 1B+ Corporations and Fortune 500 organizations. Meghan is presently the Co-Founder and Managing Director of CloudInsure (parent co: CyberRiskPartners, LLC) As Managing Director of CloudInsure, Meghan oversaw the design of the insurance industry's first "pure" Cloud Computing Privacy & Network Security insurance policy. Meghan is a member of the Risk Response Network at The World Economic Forum and received her B.S. from Miami University (OH). Meghan is a published author on several topics relating to privacy risk vs. cloud adoption and is a member of CloudNOW (Cloud Network of Women).

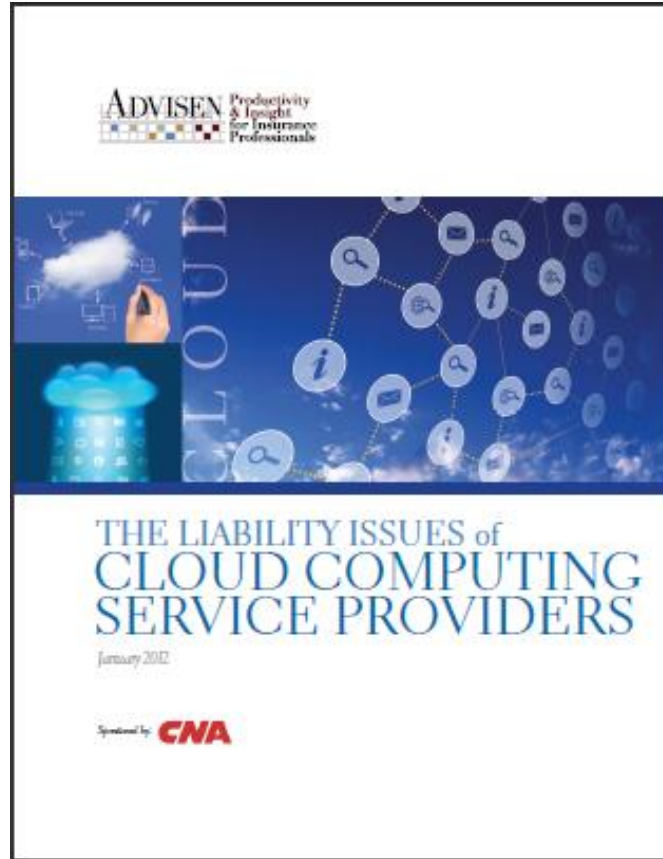

Today's Panelists

Chris Keegan, Senior Vice President, E&O and eRisk Product Team, Willis Executive Risks Practice

Christopher Keegan is a Senior Vice President and national resource for Errors and Omissions insurance coverage focusing on placements and advice on media, technology, network and privacy (“cyber”) risks. He has placed network, privacy, technology and media E&O and directors and officers insurance for a wide variety of companies including financial institutions, manufacturers, healthcare, retail and telecommunications companies. Christopher has executed technology and information risk assessment projects for financial institutions, insurers, technology companies, E-retailers and manufacturers. He has advised financial institutions regulators on evaluation of e-business risks.
