

Workers' Compensation Tool Kit®

Product Description

The tools you need to reduce your workers' compensation costs and the help you need to "take charge" of your injury process in the workplace is provided in a web-based best practice scoring, benchmarking and improvement program.

- **Assess Your Workers' Comp Program**
- **Measure Your Workers' Comp Performance**
- **Implement Cost Reduction Tools**

WORKERS' COMP KIT®

Workers' Comp Kit® is a web-based workers' compensation management and cost containment tool kit that contains **20 tools** a company can instantly begin using. The dashboard monitors the user's progress. The kit is divided into three levels: Level 1 is diagnostics, Level 2 is data benchmarking, Level 3 is the solution and tools.
